## 'LONG-EARED'" GOT

"Long-eared" Johnson, self-styled weather prophet, seems to have en-countered crossed wires in making Patronize The Only his latest prognostications. Evidently trying to improve upon the prophsy made by Father Ricard of the observatory of the University of Santa Clara, "Long-eared" gave out the following prediction several days tigo, covering the period of March , 8 and 9; "The next snowfall will ome on the 7th, 5th and 9th of Murch."

though there was a little flurry on Tuesday, with a high wind, but that foes not coincide with the moon hine sheet's official weather foreaster "Long-eared" was about as far off as it would be possible to get, and we fear the moonshine sheet will have to insist upon an explanation from "Long-eared.". Truth of he mater is that Wednesday was rifle chilly at times, but this da pened with unusual brightness

Father Ricard made the following rediction for the 7th, 8th and 9th March 7, stormy, March 8, a start at elearing; March 9 and 19, fair broughout the west coast, high preages decomming!

The Bonanza is willing to take the servations as made by Father Round rather than of "Long-eared"
